

OUR INTERNSHIP AT ALFRED NOBEL UNIVERSITY

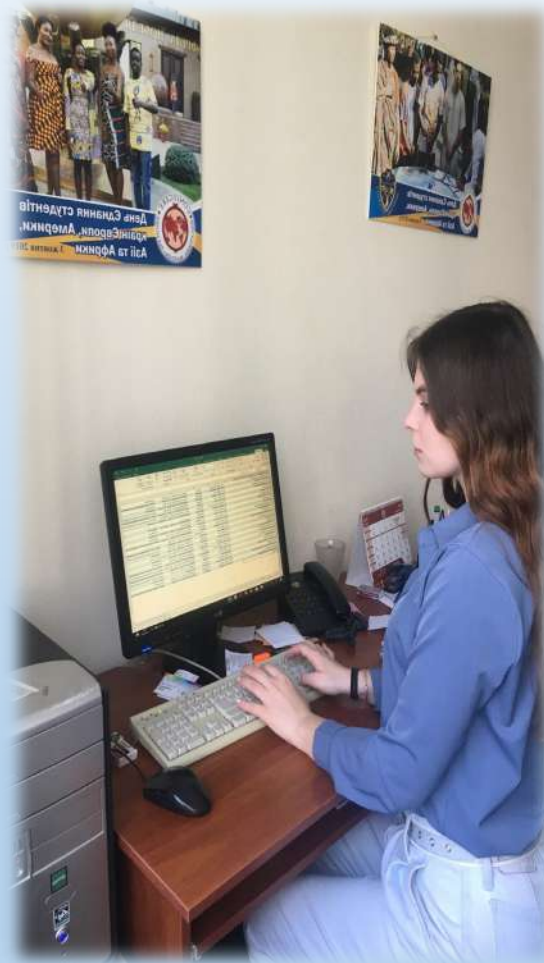

During 4 weeks we have been practicing at International Education Center.

- We have been told about the main aspects of the work and safety precautions at the first day of internship. We have met with the staff of the Center and they have shown us the volume of our work.

OUR TASKS:

- We have been translators and interpreters for foreign students of our University.
- Also, we have worked with official documents of foreign students during 4 weeks of the practice.

On February 28th our International Education Center was holding an event which was dedicated to Maslenitsa.

We are very satisfied with our internship, because we have learned how to communicate with people of different nations and we have improved our English. We are grateful to our employers for being supportive and attentive to us.

THANK YOU FOR YOUR ATTENTION
