For the question of how to deal with their weaknesses, she answered the question:

"Strength is a difficult word, it means something and being a human emotion, something very bright, in which she is well naturally designed. She need to be in the way of success of each person. A person is initially complex, strong and positive emotions, with good intentions, and further continue to be trained first in this world. The only question is to what stage of the path he/she is able to reach."
